

## What is an NDIS Plan Manager?

An NDIS registered plan manager takes on the responsibility of paying invoices issued to you by your support services and submits the claims to the NDIS portal

---

A plan manager looks after all the admin associated with your plan and makes sure your providers are paid accurately and on time

---

Help you budget and keep top of your fund

---

Takes care of the required financial reporting for you

---

Help you understand which providers and services you can access using your funding
